

## Bi-Metal Reciprocating Saw Blades

### Lenox® Bi-Metal

- Shatter resistant. Bi-metal blades bend and resist breaking and extend blade life.
- Designed to attack. Unique blade geometry positions the blade for optimum cutting performance.
- Long Lasting. TUFFTOOTH® design is reinforced to cut stronger and last longer.

### Lenox® Gold®

- Lasts longer. Reinforced tooth design and Titanium coating combine to create the longest lasting blade. Ever.
- Cuts faster. Specially formulated Titanium Edge improves the wear resistance of the teeth for faster cuts throughout the blades life.

### M.K.Morse

- 8% Cobalt edge offers more wear resistance.
- Matrix II cutting edge has shock resistant teeth that resist strippage.
- Available in a variety of blade thicknesses to meet flexibility and rigidity needs for different applications.
